

# SMITH BERRY BARN

## FARM AND GARDEN MARKET

**\*IMPORTANT:** Ripening dates indicate the approximate start date for each variety and can vary depending upon the weather and picking conditions. Please visit our U-pick Availability page on our website, which is updated daily during peak season for up-to-date picking information and/or call us for more details.

<b>STRAWBERRIES</b>	<b>Ripens</b>	<b>Variety Information</b>
Benton	June 1-5	Late season variety that has great flavor and sweetness if color is allowed to deepen.
Hood	June 1-5	Large glossy red berry with fine, sweet flavor. Excellent for preserves and jams.
Shuksan	June 1-5	Large, bright red berry with medium firm flesh and great flavor. Excellent for fresh eating.
Marys Peak	June 5-15	Large berries with excellent firmness and flavor. A later June bearing variety with deep red color throughout.

<b>RASPBERRIES</b>	<b>Ripens</b>	<b>Variety Information</b>
Cascade Dawn	June 15-20	Early season, flavorful red berry. Fine texture makes it perfect for fresh eating and desserts.
Meeker	June 20-25	Medium red, slightly firm berries with good quality flavor. Fresh eating, freezing, canning.
Tulameen	June 20-25	Large, light red, aromatic berries with wonderful flavor. Late ripening variety.
Cascade Delight	June 25-30	Large, flavorful mid-season berry. Best for fresh eating or fresh desserts. Easy to pick.

<b>BLACKBERRIES</b>	<b>Ripens</b>	<b>Variety Information</b>
Obsidian	June 20-25	Large, early ripening variety with large fruit and excellent fresh fruit quality. Developed by OSU.
Silvan	June 20-25	A cross between Marion & Boysenberry, with Marion flavor, but earlier ripening date.
Boysenberry	July 1-5	Very large, soft, juicy berry with distinctive, tangy flavor and very aromatic.
Kotata	July 1-5	Looks like marion, but with firm, sweet-tart blackberry flavor. Excellent for jam and pie.
Marionberry	July 1-5	An Oregon original. Blackberry with rich, distinctive flavor. Excellent for jam and pie.
Triple Crown	July 25-30	Large, flavorful, thornless blackberry with sweet-tart flavor. Makes great milkshakes!
Chester	Aug 5-10	Medium sized, roundish, deep black in color. Larger seeds, mild flavor, not too tart.

<b>OTHER BERRIES</b>	<b>Ripens</b>	<b>Variety Information</b>
Tayberry	June 20-25	Cross of rasp and blackberry, from Scotland. Long, dark, red berry with unique flavor.
Currant (Red & Black)	June 25-30	High in antioxidants and Vitamin C. Sweet, tart flavor, used in jellies, syrup, sauces, liquers.

<b>BLUEBERRIES</b>	<b>Ripens</b>	<b>Variety Information</b>
Duke	June 25-30	Med-large, firm, light blue berry with a mildly tart flavor. Stays fresh longer than most.
Bluecrop	July 1-5	Large, flavorful, light blue fruit good for fresh eating, baking, preserving and freezing.
Jersey	July 1-5	Dark blue, very sweet berry. A favorite for baking.
